

What is iWebZone EZSite?

iWebZone EZSite is an exciting new addition to the iWebZone family of websites.

With a site created with *iWebZone EZSite*, we offer the following services:

- Choice of website 'styles'
- Specials pages (including custom images)
- Online information request forms
- About Us page
- Contact Us page
- Online booking request forms
- Subscription request to YOUR newsletter
- Newsletters download page

When ordering your *EZSite* you have the option to access the site by either using www.iwebzone.net/<agent> (where <agent> will be your unique agent name) or by purchasing your own domain "name" which will link to your *EZSite*. For example, you could register the name www.victravel.com.au and have this redirect to your *EZSite*.

How will iWebZone EZSite help my business?

In this day and age when most people have access to the Internet either at home or at the office, a web 'presence' is essential to your business and to keep your customers informed of special offers and promotions.

With *iWebZone EZSite* you can forget the hassles of having to find a reputable company to design your own website and yet another company who will host it.

With *iWebZone EZSite* we take all the hassle out of web design by giving you a 'template', which is already geared to your industry. Once you add your company logo, contact information and special offers you will be up and running!

How do I keep my site up-to-date?

It couldn't be easier to keep your information up-to-date and provide your customers with weekly offers and monthly newsletters. All you need to do is to log onto the **iWebZone** site and away you go!

The editing suite is designed to work just like Word for Windows©, you can select the font colours, size, bold etc from the toolbar and then just type away.

iWebZone EZSite allows tremendous control over your pages and, if you like, gives you the ability to unleash your creative side.

What about my company brand?

When you sign up for a *iWebZone EZSite*, we will talk to you about the colour schemes for your site as well as any company logos or graphics that you may want to display on your home page. There are no branding restrictions so we can give you a site, which follows your current business branding guidelines.

What will it look like?

Here's some screenshots of a fictitious travel agent we created using EZSite templates:

Fiji

Fiji is 330 sunny, unspoiled, magical, exotic islands just a few short hours from Australia. It is a thousand miles of pristine white sand beaches, fabulous coral gardens and azure lagoons.

These islands offer a unique environment of extreme beauty and tranquillity - a nature lover's delight. Adrift for millennia in the splendid isolation of the South Pacific, Fiji has escaped the evils of industrial progress - its safe tropical forests are within easy walk of your resort and in some cases part of your resort.
